EDUCATION

Chitkara University <i>Bachelor's of Engineering / Computer Science</i>	Baddi , Himachal Pradesh 2019 - 2023
---	--

EXPERIENCE

Analyst <i>Eclerx Pvt.Ltd</i>	Sept 2023 - Oct 2024 Chandigarh
---	---

- Analyzed data to derive insights and drive business decisions.
- Worked closely with internal teams and clients to ensure accurate data processing and streamlined workflows using ACSR and a CRM designed with Salesforce Admin Portal.
- Ranked top among peers in meeting and exceeding targets, demonstrating exceptional focus and efficiency.
- Managed multiple tasks and deadlines by effectively reallocating priorities and coordinating efforts across the team.

Internship <i>Zenith Tech Solutions</i>	June 2023 - Sept 2023 Chandigarh
---	--

- Acted as a bridge between clients and technical teams, ensuring clear understanding of project goals and deliverables.
- Prepared and maintained documentation to support sales pitches and client onboarding processes, aligning business goals with technical solutions.
- Organized and led client meetings to gather requirements, address concerns, and provide updates on project progress.
- Consistently met project deadlines and delivered solutions that aligned with client requirements and expectations.

Salesforce Admin & Developer Intern <i>Skill Labs</i>	Feb 2023 - June 2023 Chandigarh
---	---

- Technologies: Salesforce, APEX, Visualforce, Java, JDBC, SQL
- Managed user profiles, customized page layouts, created reports, and automated processes using Salesforce Workflow Rules, Process Builder, and Validation Rules.
- Developed Java applications for backend processes and utilized JDBC to integrate Salesforce with external databases.
- Streamlined workflows and improved system performance, leading to increased client satisfaction and enhanced user productivity.

PROJECTS

Social Media App (MERN Stack) | Group Project | Role:Frontend Developer (Styling & MongoDB Integration)

- Developed a social media web application similar to Instagram using the MERN stack (MongoDB, Express, React, Node.js). The application enables users to share posts, follow other users, like and comment on posts, and view a personalized feed.
- Assisted with MongoDB integration, setting up schemas for user and post management, and working with RESTful APIs to fetch and display dynamic content.
- Coordinated with a team of 4 developers to implement features and ensure app functionality, including user authentication and data storage.
- Technologies: React, Node.js, Express, MongoDB, CSS/SCSS, HTML, Git, JavaScript

Sudoku Game | HTML , CSS , JavaScript

- Project Link : <https://sameernarula22.github.io/SudokuGame/>
- Stored the user input in an array, validated each cell against the solution array, and provided immediate feedback to users through dynamic styling.
- Developed an interactive Sudoku puzzle game using JavaScript, HTML, and CSS.
- Added features such as highlighting rows, columns, and grids, and allowing users to reset or validate their board.

TECHNICAL SKILLS

Languages:	Java, JavaScript, SQL, HTML, CSS
Frameworks:	ReactJS, Express (MERN stack)
Dev Tools:	Git, VS Code, IntelliJ, Eclipse, Salesforce Admin
Libraries:	Tailwind CSS , Bootstrap
